1617 Virtual LLC

a digital music company

1617 Virtual, LLC is the parent company of
www.VirtualMusicMarket.com **and** www.HitMenSongPluggers.com,
in addition to being a digital radio promotion and digital music marketing company.

While we are not a radio promotion company in a conventional sense which requires considerable expense to move singles up the radio charts, our quest is to brand and expose clients' music over time through our radio and music consumer email databases and email marketing and promotion programs.
